

RESOLUTION PROJECT · SOCIAL VENTURE CHALLENGE · JULY 2026

Ongera Ubeho

Reconnecting youth. Healing families. Rebuilding futures.

"Live More · Choose Life" — Kinyarwanda · University of Rwanda · Mastercard Foundation Scholars · Kigali, Rwanda

1 / 12

WHY THIS MATTERS TO US

We watched it happen to people we love.

01 Our story

Three engineering students from the University of Rwanda, raised in the same communities we now serve.

02 What we saw

Brilliant friends lost to substance abuse, gambling, and street life — while their parents searched for help that did not exist.

03 What we chose to do

Build the support system our neighbourhoods never had — community mentors, in Kinyarwanda, reachable from any phone.

“Our communities held us. Now it is our turn to hold others.”

YOUTH-CREATED · YOUTH-LED · WOMEN-LED

Founders from the communities we serve.

Abikunda Macrine

Founder & Project Lead · Electrical
Engineering, UR · Secretary, SANGA
INSHUTI Initiative

Dusingizyezeu Serge

Co-founder & CTO · Electrical Engineering,
UR · Full-stack software engineer

Giramahoro Henriette Marie

Co-founder & COO · Electrical Engineering,
UR · Member, Solid Minds

THE PROBLEM

Too many young lives are lost before adulthood.

7,000+

children living on the streets of Kigali

6,200+

youth in addiction treatment centres

776

students dropped out of school due to drugs

Family conflict

Isolation

Substance abuse

School dropout

Street life

Lost potential

Parents recognise the warning signs — but have nowhere
affordable, accessible, or culturally relevant to turn.

Sources: national rehabilitation-centre and street-children figures — [Rwanda Biomedical Centre / NRS · NISR · MINEDUC reports]

4 / 12

WHY EXISTING SYSTEMS FAIL

Help exists — just not for these families.

	Ongera Ubeho	The status quo
Cost to a family	2,000–5,000 RWF/mo · subsidised	20,000+ RWF, out of reach
Where it lives	Inside the community	Urban clinics only
When it acts	Preventive — before crisis	Reactive — after crisis
Technology needed	Any phone — USSD / SMS	Smartphone + data
Language & culture	Kinyarwanda community mentors	Clinical, often English
The relationship	Long-term mentorship	One-off sessions

OUR SOLUTION

One hub. Two connected tracks.

TRACK 1 · PREVENTION — FAMILY MENTORSHIP

Parent, any phone → USSD / WhatsApp →
Matched mentor → Ongoing mentorship

TRACK 2 · REHABILITATION — STREET YOUTH

Weekly outreach → Safe space →
Life skills + support → Family reintegration

Both tracks → Referral network — schools · shelters · MINISANTE health services

Technology supports people — it never replaces them.

WHO WE SERVE

Specific people. Not a statistic.

GENDER FOCUS

60%+

of youth beneficiaries will be women & girls.

AROUND THEM

The safety net

Parents & caregivers ·
community mentors · local
leaders · government & NGO
partners.

AT-HOME YOUTH

50

in active mentorship

STREET
CHILDREN

30

in rehabilitation

FAMILIES

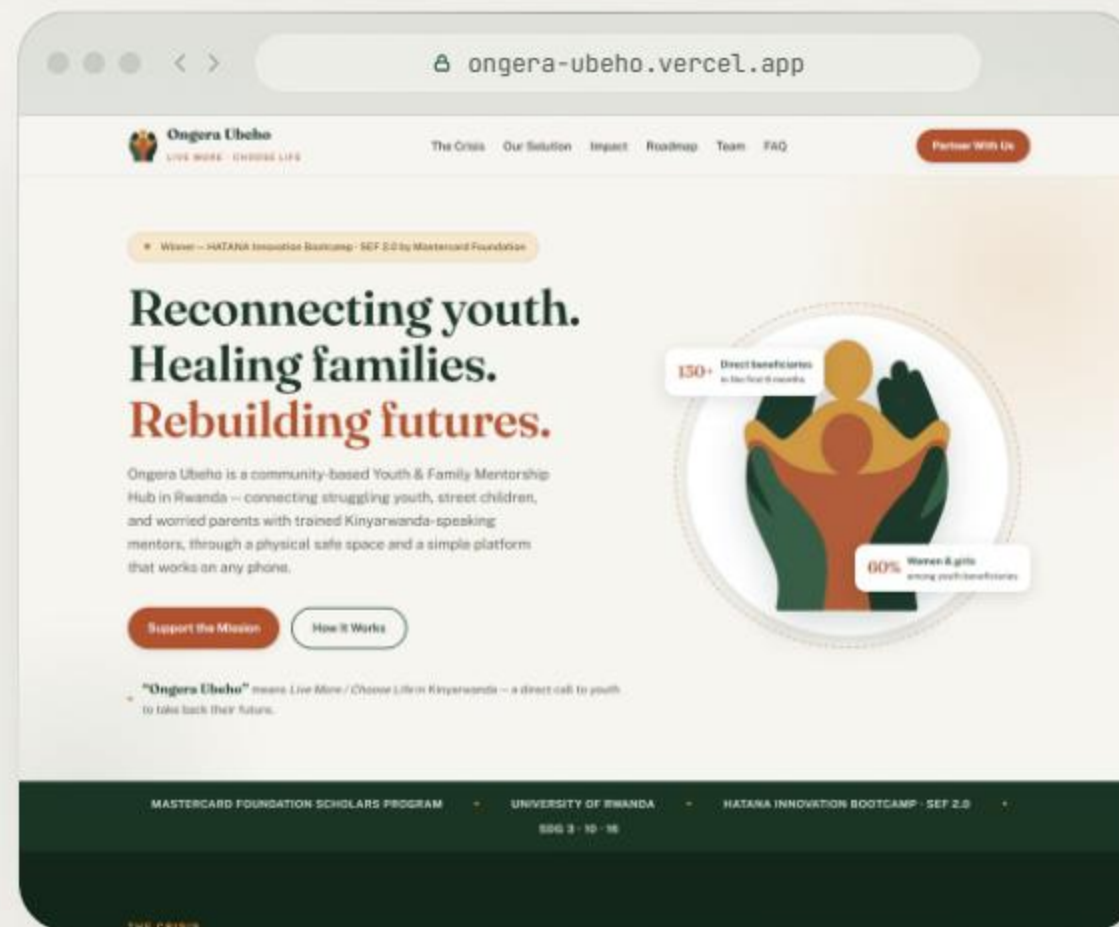

40

guided &
supported

TRACTION & ALLIES

Momentum before the first grant dollar.

- ✓ **Institutionally validated.** Winning venture — HATANA Innovation Bootcamp (SEF 2.0), Mastercard Foundation Scholars Program · University of Rwanda, March 2026.
- ✓ **Already operational online.** Live platform at ongera-ubeho.vercel.app with a working partnership & mentor-application pipeline.
- ✓ **Allies on our side.** University of Rwanda · MCF Scholars Program · Solid Minds & SANGA INSHUTI through our founders · community leaders in Kigali.
- ✓ **Pathway to government.** Model designed for MINISANTE & MIGEPROF integration, aligned with NST2 and Vision 2050.

MEASURING IMPACT

Measured, not claimed.

Inputs

Activities

Outputs

Outcomes

Long-term impact

80%

mentorship completion rate

70%

families reporting improved
communication

60%

reduction in risky behaviours

Baseline + follow-up assessment for every participant · referrals tracked into education, vocational training, and government services · M&E independently costed at 6% of budget.

9 / 12

SUSTAINABILITY & GROWTH

Built to outlive the seed grant.

Built as an organisation, not a project: documented mentor curriculum, structured roles, and a leadership transition plan for future team members.

6 MONTHS

Pilot — prove the model

130+ beneficiaries in Kigali; evidence base published.

YEAR 1

Expand & earn

Family fees begin subsidising free street-youth services.

YEAR 2

District replication

Mentor training replicated with MINISANTE & MIGEPROF.

YEAR 5

National model

A blueprint any of Rwanda's 30 districts can adopt.

10 / 12

THE ASK

**US \$5,000 → a complete
pilot.**

LINE ITEM	AMOUNT	WHAT IT BUILDS
Platform development	\$1,200	USSD / WhatsApp mentor-matching system
Street youth outreach	\$1,200	Weekly visits — transport, food, hygiene, first aid
Safe space rental	\$700	Physical mentorship location in Kigali
Mentor training	\$600	10 community mentors trained, certified & paid
Awareness campaign	\$500	Radio, flyers, community mobilisation
Operations & coordination	\$500	Transport and communications, 6 months
Monitoring & evaluation	\$300	Baseline + follow-up impact tracking
Total — one-time seed	\$5,000	Six-month pilot · 130+ direct beneficiaries

Line-item budget with expense frequency documented in the operating plan · Resolution grant is one-time

Every child deserves someone who believes in them.

Every parent deserves somewhere to turn.

Every young person deserves another chance.

We are not simply asking for funding. We are inviting Resolution Project to help
build a future where **no young person walks that journey alone.**

Murakoze — thank you.
